

Tom Place is the Director, Information Security and Regulatory Compliance for The Coca-Cola Company. Mr. Place directs the Company's global information security program which ensures appropriate availability, access and protection of the Company's information assets; IT compliance to global and local regulatory directives such as Sarbanes-Oxley, data privacy, HIPAA, etc.; management of IT risk and secure continuity of business operations; and program communication across the worldwide bottler network of The Coca-Cola System.

Since 1980, Mr. Place has held a variety of positions supporting Coca-Cola's Global Information Technology function, including IT strategic planning, technology operations, systems support, and international business portfolio management.

The Coca-Cola Company Company Overview

The Coca-Cola Company engages in manufacturing, distributing, and marketing nonalcoholic beverage concentrates and syrups worldwide. The company also produces, markets, and distributes juices and juice drinks, as well as water products. It sells beverage concentrates and syrups to bottling and canning operators, distributors, fountain wholesalers, and fountain retailers. The company's beverage products comprise bottled and canned soft drinks and beverages, as well as concentrates, syrups, and not-ready-to-drink powder products. In addition, The Coca-Cola Company markets and distributes sports drinks, teas, coffees, and other beverage products. The company was organized in 1886 and is headquartered in Atlanta, Georgia.
